

8 Reasons to Dump Excel for Apptega

#DIVO

1 Apptega is simple

We pride ourselves on how simple our product is to use. It's so simple, even your grandma could use it!

2 Organization saves time

Apptega saves you valuable time by eliminating the time spent building out reports and managing spreadsheets and keeping all your data neatly organized.

3 Collaboration

Collaborating is easy with Apptega. Get everyone on the same page without the pain and stress of spreadsheets and miscommunication.

4 Lockdown your cybersecurity data

Ensure your cybersecurity information doesn't leave the organization when people do. With Apptega you can lock it down.

5 Delegation and accountability

With Apptega you can delegate tasks and hold your employees accountable to ensure all of your compliance needs are met.

6 Instant reporting

You can build out reports directly from the platform with just a click of a button making it less stressful to put board reports together.

7 Budget management

With Apptega you can manage your budget within each step of your framework as well as managing your overall budget on the reports page making it easy to track your money.

8 Alerts

With Apptega, each time you assign a subcontrol or a task to an employee they receive an alert, they'll also receive an alert 30 and 7 days before the due date ensuring the task is completed.

Apptega is the only solution to provide an easy way to build, manage, and report your cybersecurity program.
